PAROLES

I was out playing shows and everything was great
I was in my element I was on cloud nine nothing could get me down
But when I got back to Maine I realized something was very grave
My friends were sitting alone in a room playing Fortnite that's what's you do
They said who needs to talk face to face, we've got snap chat now it's in its place
They said who needs real friends we've got internet creeps on the other end
And if you ask us what century we're from we'll say the century of neck injuries

We're insecure kids
who just need the wings to fly
We're insecure kids
who wanna lay down and cry
We're insecure kids
who never go outside

I was sitting by my door when I heard a knock I'd never heard before
I looked through the peephole to see oh no it was reality starring back at me
He said I've got an overdue past into me oh can't you see it's true to be
I'll take you around the world and show you the things you couldn't have stopped
like the deaths and the wars everywhere

We're insecure kids
who just need the wings to fly
We're insecure kids
who wanna lay down and cry
We're insecure kids
who never go outside

You gotta wake wake wake wake up from this dream
You gotta wake wake wake wake up from this dream
You gotta wake wake wake wake up from this dream
You gotta wake wake wake wake up from this dream
If you're feeling scarred then grab your friend's arm
Whisper in their ear I don't mean any harm
We got to wake up weather you like it or not
Because we've been sleeping for too long
You gotta wake wake wake wake up from this dream
You gotta wake wake wake wake up from this dream
You gotta wake wake wake wake up from this dream
You gotta wake wake wake wake up from this dream

We're insecure kids
who just need the wings to fly
We're insecure kids
who wanna lay down and cry
We're insecure kids
who never go outside
